Recent Investigative Stats

The Colorado Division of Real Estate (DRE) investigated 1,061 complaints against real estate agents in the state during 2022-2023. This shows a slight increase over 2021-2022, where the division investigated 1,046 complaints.

The list on the following slide shows the results of those 2022-2023 investigations and compares them to the numbers from 2021-2022. You'll note that the totals don't precisely add up because some investigations were carried over from one year to the next and take longer to complete.
